A-LIGN Compliance and Security, Inc. certifies that the organization operates a Privacy Information Management System that conforms to the requirements of ISO/IEC 27701:2019. The scope and boundaries of the PIMS is as follows:

Eightfold AI Inc. has implemented an Information Security Management System (ISMS) and Privacy Information Management System (PIMS) in accordance with the ISO standard ISO/IEC 27001 and ISO/IEC 27701 that maintain the confidentiality, integrity, and availability of data and protect the systems required to operate Eightfold’s Talent Intelligence Platform offerings. Eightfold AI® delivers the Talent Intelligence Platform™, the most effective way for private and public sector organizations to retain top performers, upskill and reskill the workforce, recruit top talent efficiently, and reach diversity goals.

Eightfold's platform leverages an underlying global data set to fully understand the availability, maturity, relevance, learnability, and evolution of skills in the global market. This allows leading organizations to be specific with their upskilling and reskilling programs and offer a personalized experience to employees, generating better returns from their existing HR investments. The platform is delivered through the web browsers and/or mobile applications, and the platform helps employers understand the workforce's skills and capabilities to accelerate internal mobility and helps hiring companies find matches quickly and onboard new employees and contingent workers.

The ISMS and PIMS encompass the development, delivery, operation, management, and maintenance of Eightfold information systems and assets and pertain to personnel who access, operate, support, and maintain them and covers both the Santa Clara, California headquarters site and the development lab in Noida, India.

The statement of applicability includes control objective from the ISO/IEC 27701:2019 Annex B framework.
