# THE CHALLENGES OF A DIGITAL HR...

Next Stop – HR Future

What would be if..

... I can utilize my resources flexibly depending on where their skills are most needed?

... my employees can develop and reskill themselves in the best way?

... recruiters can easily see which candidate fits best to my company?

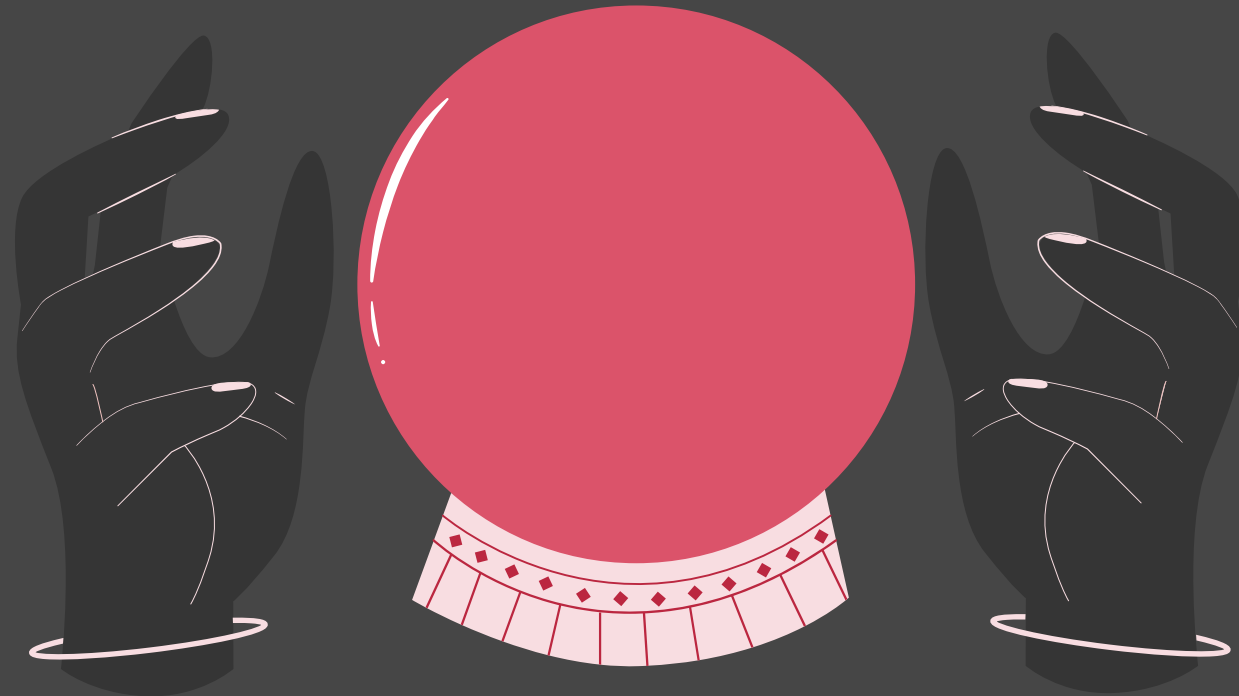

... I knew already which skills are relevant for my company in the future?

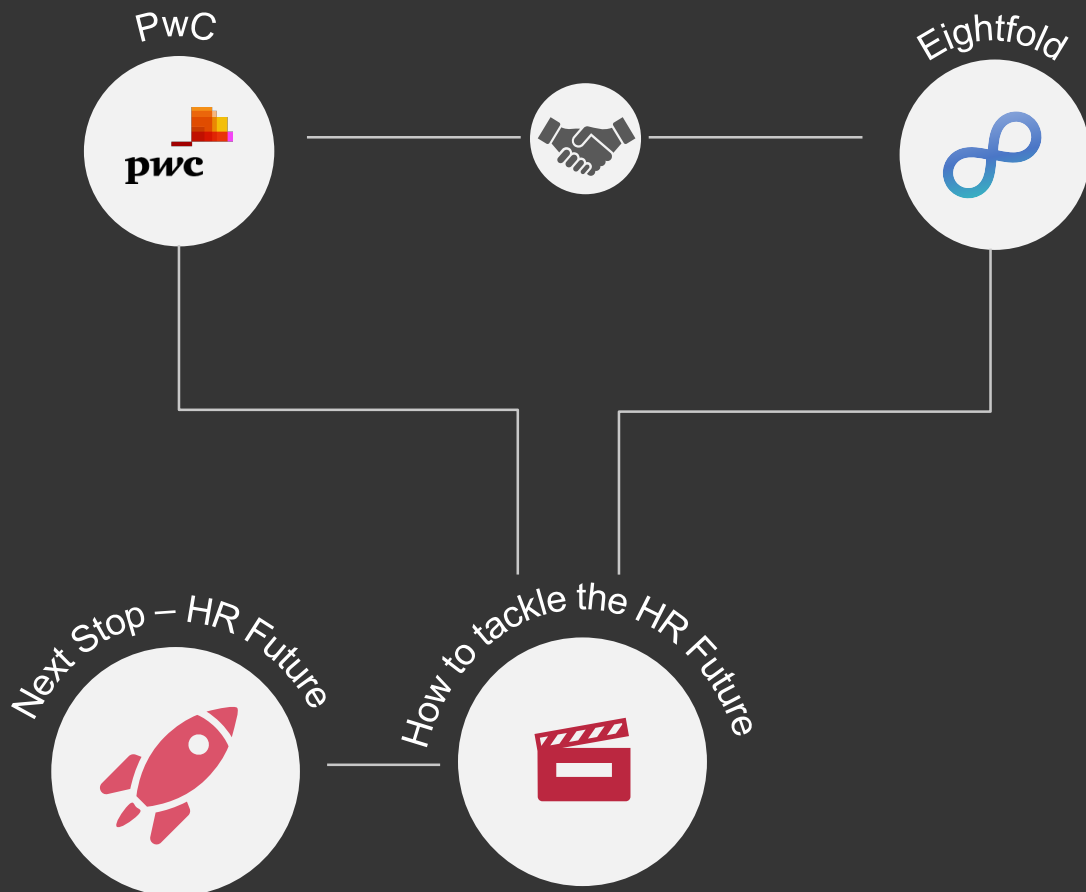

... every applicant easily knows which of my open positions fits best to their current skillset?
