

Attract and retain top talent in the public sector

Eightfold AI delivers the products you need to drive the talent outcomes you want

In today's talent market, competition is tough. And nowhere is it tougher than the public sector, where government agencies compete for talent with the private sector. Yet, some of the most fulfilling and rewarding work can be found in the public sector — if your agency is doing everything it can to find the right people for the work.

Discover a better way to find and retain top talent and assign project-based work when you need it. AI-powered talent intelligence drives highly personalized experiences for everyone in the public sector — from recruiters and hiring managers, to candidates and employees — helping you find the right fit for any job or project at the right time.

Grow a highly skilled and diverse workforce ready to meet today's and tomorrow's challenges with Eightfold today.

“New York has made remarkable progress in reducing unemployment, creating high-paying jobs, and connecting job seekers to fulfilling work opportunities. We are leveraging the very best technology to give New Yorkers a world-class, job-finding tool completely free of charge.”

Kathy Hochul,
Governor of New York State

Drive forward looking talent strategies with Eightfold AI

Build your company's talent intelligence and make smarter workforce decisions

Find and recruit the right talent faster

Accelerate employee development and growth

Advance diversity goals

Deploy the right talent at the right time

Connect candidates with organizations invested in helping them build meaningful careers. Workforce Exchange supports public policies and accelerates hiring optimizing for the jobs of today and tomorrow.

Focus on DEI

Improve and support diversity, equity, and inclusion goals with AI-powered talent intelligence that attracts candidates and mitigates bias.

U.S. Department of Defense uses Eightfold for agile talent employment

Eightfold AI's Talent Intelligence Platform powers the Defense Innovation Unit's project marketplace app called GigEagle, which matches DoD work with military personnel – specifically Reservists and National Guard members – seeking short-term projects that need their expertise.

“It opens up a whole new avenue, a whole new set of people that have always been there, but we weren't able to utilize in this way.”

– Colonel Christopher “CJ” Johnson,
U.S. Space Force Project Lead

See greatness everywhere
